

WDL for eBooks on Computer Desktop

You can borrow eBooks from your library and transfer them to your desktop using the free Adobe Digital Editions (ADE) software on your Windows or Mac computer.

Step 1

Download Adobe Digital Editions on your computer. You may find it by opening your computer's web browser and doing a Google search for "Adobe Digital Editions download." Or, enter the web address <http://www.adobe.com/solutions/ebook/digital-editions/download.html> in your web browser's address bar.

Step 2

View Wisconsin's Digital Library electronic book collection:

- Open a web browser on your computer and go to www.cedarburglibrary.org
- Under the Get Started menu, select eBooks and eAudiobooks.
- Sign into the Wisconsin's Digital Library website using your library card barcode.
- Find an eBook title by using the search bar or browsing by subject or collection. Click Borrow to borrow a title or Place a Hold to be added to a wait list.

Step 3

Download titles to the Adobe Digital Editions application on your computer's desktop:

- To do this, go to your Loans shelf under the My Account dropdown options in the upper right corner of Wisconsin's Digital Library.
- Find the title you wish to download and select Choose a Format, then ePub or PDF file format.

If prompted, authorize your computer with a free Adobe ID (this is required for downloading protected eBooks). If you don't have an Adobe ID, you'll see a link to create one.

Step 4

Downloaded eBooks should open in Adobe Digital Editions automatically.

Notes:

1. Selecting the All Items bookshelf in Adobe Digital Editions will show you all eBooks that you have downloaded.
2. To return an eBook within Adobe Digital Editions, right click on the title and select Return Borrowed Item.
