

## Tracking the World's Hot Spots: What's happening in Korea?

Demilitarized Zone (DMZ)

**Thurs. May 17, 6:30-7:30 pm**

Join us for a discussion on this important and timely topic at the Cedarburg Public Library Community Room.

38th Parallel

## CPL NEWS

*Inspiring lifelong learning*

Without libraries what have we?  
We have no past and no future.  
~ Ray Bradbury

**MAY 2018**

### WHAT'S NEW?

## New Books and Fun Events for Teens

As summer approaches, the Youth Services department is planning exciting and fun events for teens! For instance, we are scheduling an Escape Room, Banana Autopsy, Jumbo-Size Game Night and DIY crafts.

Before summer begins, however, teens are busy preparing for final exams. If you need a quiet place to study, CPL is hosting "Exam Cram" in the community room many days this month. In early June, volunteer opportunities are available to teens as well. We need help assisting younger children with summer registration. Lastly, we've added new Young Adult titles to our bookshelves – stop by and check out a brand new book!

## Digital Lab: Preserving Memories

Through a grant from the Friends of the Library Foundation the library will be soft launching a digital lab in May 2018. Try out the new equipment dedicated to helping you to turn your important documents and photo memories into digital files. The station is drop-in during the month of May.

## Early Childhood Literacy Activities

Thanks to the Friends of the Cedarburg Public Library we now have an area play rug dedicated to early childhood literacy - Fishing for Literacy. Besides fishing, enjoy the rug with alphabet and number bean bags. The rug joins our other early childhood literacy activities that foster growth and bring enjoyment to our youngest visitors. Stop by and check out what's available.

## Drone Fever - Coding and Piloting

Drones will be arriving in June 2018! Dedicated as a teaching tool to learn coding, access to the drones will be through three progressive classes. Basic Coding and Controls, Advanced Coding and Challenges, and Drone Free Flying and Immersive VR. Look for more details in June and join us in learning to control a drone's flight, pick up objects, and shoot a target all through coding. Thanks to the Friends of the Library Foundation for funding the drones for the library.
