# LIBRARY NEWS

## Director's Message

I have just completed the Library's 2024 Annual Report and some interesting things to note are the uptick in materials being checked out and the number of people coming into the building. We have certainly noticed it at the staff level as well, it's great to be busy and see new faces and new families coming to use the library.

We wouldn't be able to provide the wonderful programs and extra copies of books to meet demand without our wonderful **Cedarburg Friends of the Library** group (see page 8). Please consider joining the Friends, or even better, consider joining the Board to help support the Library into the future. Attend one of the Friends Board meetings on the first Tuesday of the month at 6:30pm to meet this friendly group and see if it may be of interest to you, the more Friends the better!

India is an emerging major power in world affairs, occupying a pivotal position between China, the United States and the Global South. Its population size, economy and geopolitical location ensure that it will be an influential voice in debates and political struggles over global order. What are India's choices and opportunities for regional and global leadership? How will it maneuver between China and the United States, and what is its role as a voice of the Global South? What opportunities exist for Washington to work with India?

March 13, 6:30 PM: *Doug Savage presents American Foreign Policy in the Middle East: Taking Stock and Looking Ahead*

The war in Gaza has brought the region to a crossroads. What are the possible outcomes of the war, and how might the United States use its influence to shape a long-term settlement that leaves both Israel and the Palestinians in a better position? How might Arab states in the wider region be brought into a settlement? What are America's interests in the Middle East and how can it advance them?

March 20, 6:30 PM: *Rick Rocamora presents U.S.-China Relations*

Washington's relations with Beijing have reached an ominous low ebb. Both American political parties have identified China as the country's preeminent geopolitical challenger and, in the eyes of many, a systemic threat. What is driving this deterioration of Sino-American relations, and what are America's strategic options in the face of Chinese power and ambition?

March 27, 6:30 PM: *John Katzka presents American Foreign Policy at a Crossroads*

This presentation will explore the contours of the U.S. foreign policy debate as it plays out in a world of multiple and escalating crises and domestic polarization.
